

Star claim certificate

CERTIFICATE OF STELLAR REGISTRATION

CLAIMED BY

Google

Hello Google Star!

Claim date: September 20, 2026

Claim number: a31z5nqm0c

Permanent link: <https://www.star.org/s/a31z5nqm0c/>

Star identifier HIP-59196

Constellation and designation Centaurus δ • HD 105435 • HIP-59196

Right ascension 12h 08m 22s

Declination $-50^{\circ} 43' 21''$

Apparent magnitude mag 2.58

This is a commemorative, publicly verifiable claim service. It does not constitute official naming by the International Astronomical Union (IAU) and confers no naming right over any celestial body. The astronomical data on this certificate comes from public catalogues and is presented for commemoration only.

Spectral type B2I (blue-white star)

Distance 415 ly

Issued by Star.org on September 20, 2026

HOW TO VERIFY THIS YOURSELF

1. Look up HIP 59196 in the SIMBAD astronomical database (<https://simbad.cds.unistra.fr/simbad/sim-id?Ident=HIP+59196>) and confirm the star exists and that the right ascension, declination and magnitude on this certificate match it.
2. Open the permanent link <https://www.star.org/s/a31z5nqm0c/> — the claim number on that page matches this certificate.
3. Search the star identifier HIP-59196 in the public registry <https://www.star.org/registry/>. Exactly one record should come back; if the same star appears twice, the registry is inconsistent and we would like to hear about it.
4. Claim records are stored as text files under `data/registrations/` in the public repository, readable by anyone without an account.
